SHIBAS ON THE MOON | AUG - 2023 - OCT 2023

Frontend Web Developer

Project: Crypto currency token landing page

Website designed to inform potential investors, enthusiasts, and users about token's features, benefits, use cases, and how to acquire or engage with it.

Relevant tasks:

- Developed a responsive website featuring a user-friendly contact form for inquiries and communication.
- HTML/CSS Development: Coded the website structure and styles.
- UI/UX Design: Designed user interfaces for a visually appealing and intuitive experience.
- Responsive Design: Ensured the website adapts to different devices.
- JavaScript Integration: Added interactive elements using JavaScript.

TECH STACK

HTML, CSS3, Javascript, DOM API

EMBER FLIP FLOPS | FEB - 2023 - AUG 2023

Full Stack Web Developer

Project: Ember Flip Flops E commerce Web Site

An innovative e-commerce platform powered by Express, Node.js, and MongoDB, offering seamless online shopping experiences, secure payment processing through PayPal, and a user-friendly interface for customers to browse and purchase flip flops.

Relevant tasks:

- Project Planning and Architecture
- Design and develop responsive web pages using HTML, CSS, and JavaScript.
- Build server-side applications using Express and Node.js.
- Set up a MongoDB database using Mongoose for data modeling.
- Implement CRUD (Create, Read, Update, Delete) operations for database interactions.
- Implement payment processing, including checkout and order confirmation.

TECH STACK

HTML5, CSS3, Javascript, Node JS, Express, Mongoose, Mongo DB, PayPal.

FREE LANCE PROJECT | SEP - 2022 - FEB 2023

Frontend Web Developer

Project: Web site portfolio using HTML, CSS, and vanilla JavaScript

Responsive personal website that showcases skills, achievements, and personality of the customer. Features smooth page transitions and interactive DOM elements.

Relevant tasks:

- Plan and design the architecture, considering factors like user experience (UX), scalability, and maintainability.
- User Interface (UI) Design: Ensure a consistent and visually appealing UI by applying CSS styles and animations.
- Use vanilla JavaScript to manipulate the DOM, enabling dynamic content updates implementing event listeners and handlers to make web site interactive and responsive to user actions.
- Integration of a user-friendly contact form into the website to make it easy for visitors to get in touch with the customer.
- Responsive Design: Ensured the website adapts to different devices.
